

 JANA NICOLE JEANSONNE

## Woman's Intuition

Jana Nicole Jeansonne, Broker/Owner of Regency Realty Services Will Find Your Dream Home

**ELITE REAL ESTATE BROKER AND VISION-**ary Jana Nicole Jeansonne, CIPS, GRI, CRB, thinks outside the box, and you sense it from the start. A native of Central Europe who grew up in the vineyards and orchards around Danube—equidistance from Vienna and Prague—Jeansonne spent years in the international casino business, traveling the world, understanding people and their global interests. After joining the real estate business in 1997, she now brings her intuitive approach to the art of finding your “dream castle.”

And Jeansonne will find it for you—whether

it's an estate home, investment property or a venture for your bi-continental business.

Jana speaks English, Czech, German, Slovak and Russian.

More importantly, she speaks your language.

When she is not selling, Jeansonne en-

joys life fully, including skiing in the Alps, golf, driving her vintage Bentley, gourmet cooking and entertaining. She often travels globally, although she's never more than an e-mail or Skype call away! And she loves her cat Max, adopted from an abandoned South Beach condo. She donates to the Humane Society and Propel charity.

In January, she opened another green, smart office in Boca Raton at 861 Yamato Road for her large independent firm, Regency Realty Services. For years, she has been running this luxury portfolio company with all her heart, confidence and commitment. Her 200-plus multilingual professionals unite extraordinary lives with extraordinary homes using unrivaled syndication techniques and proper positioning of every listing on all the major global search engines. Of course, this makes Regency the go-to team for Boca Raton and beyond.

Regency's extraordinary reputation for its one-stop shopping concept of title, mortgage, real estate attorney and short sale negotiators—free of charge!—saves clients time and money.

Jeansonne was nominated NAR President's Liaison to the Czech Republic and has devoted many years to higher professional standards locally.
